WORK EXPERIENCE

Aptitude 8 *(merged with The obo Group)*

VP of Technology **2026 – Present**

- Lead the technology organization across solution architecture, pre-sales, solution engineering, and development, plus an internal product team I stood up to build proprietary tooling; own how the firm architects, sells, and delivers technical solutions.
- Drove company-wide AI adoption: delivered a training program and rolled out Claude org-wide, raising daily active use from ~50% to over 90%, and now embed AI directly into delivery through internally built tooling.
- Built the framework used to scope and win aggressive, high-stakes enterprise migrations, increasing both pipeline and close rate on those deals.
- On the executive leadership team; help set company strategy and define AI service offerings as a growth vector, with sustained year-over-year revenue growth.

Director of Technology **Apr. 2023 – 2026**

- Led the technical implementation team (HubSpot, Salesforce, monday.com) delivering $1–2 million in projects per quarter.
- Built an app (monday.com, Slack, OpenAI, LangChain) embedding AI into client workflows, saving the sales team ~1 hour per client; introduced tooling that cut project time up to 10%.

Principal Consultant **Jan. 2022 – Apr. 2023**

- Technical lead on large-scale system design (Salesforce, HubSpot) and API/database integrations, owning projects from pre-sales discovery through implementation and team oversight.
- Developed a HubSpot marketplace app that has generated over 800 leads to date.

Senior Consultant **Apr. 2021 – Jan. 2022**

- Built well-designed data pipelines in Python and cloud infrastructure for integrations (DigitalOcean, AWS, Heroku).
- Mentored team members on implementing the architected solutions.

Lead Consultant **Aug. 2020 – Apr. 2021**

- Mapped business processes and developed Python to integrate and migrate data across endpoints.

Technologist **May 2020 – Aug. 2020**

- Implemented and configured new Salesforce instances to client requirements.

Garrison Homes

Project Manager **Mar. 2017 – Jan. 2019**

- Oversaw day-to-day project operations: ordering materials, scheduling subcontractors, and keeping clients updated on progress.
